

DECLARATION AND POWER OF ATTORNEY

10/539230

As a below named inventor, I hereby declare that:

My residence, post office address and citizenship are as stated below next to my name; and

I believe I am an original, first and [] joint [X] sole inventor of the subject matter which is claimed and for which a patent is sought on the invention entitled:

VEHICLE WITH A TILTABLE CHASSIS

described and claimed in:

[] the attached specification, Attorney Docket No. _____.

[X] the specification filed 06/16/05, as U.S. Application Serial No. 10/539,230, which claims priority to PCT patent application number PCT/IB2002/005833; International filing date of December 20, 2002.

I hereby state that I have reviewed and understand the contents of the above-identified specification, including the claims as filed and as amended by any amendment referred to above.

I acknowledge the duty to disclose information which is material to the examination of this application in accordance with Title 37, Code of Federal Regulations, §1.56(a), including for continuation-in-part applications, material information which became available between the filing date of the prior application and the national or PCT International filing date of the continuation-in-part application.

I appoint the practitioners associated with customer number: 27127

as my attorneys with full power of substitution and revocation, to prosecute this application and to transact all business in the United States Patent and Trademark Office connected therewith.

Address all telephone calls and all correspondence to the practitioners associated with customer number: 27127

I further declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under §1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application or any patent issuing thereon.
